RELICS ON THE TRANSPORT LOGAN

The United States Army transport Logan is very fortunate in having a collection of precious relics of the distinguished soldier and statesman for whom the vessel was named. On the wall of the writing room is hung a beautiful portrait of General John A. Logan and on either side are frames containing specimens of the general's handwriting. In two small frames are letters written on United States Senate stationery to the publishers of the General's memoirs. These are in pen-cil and in Logan's own writing. The U. S. A. T. missionaries returning from Tokio,

Two mail steamers will arrive from the Coast today. The first one will be the Alameda which should show up at about 7 o'clock. She will probably bring the bulk of the mail. The other boat is the Pacific Mail liner China which left San Francisco two hours after the Alameda. As she is a slower boat she is not looked for before the afternoon. She will bring mail that left San Francisco two hours later than the Alameda's. The China will bring Governor Carter and elaborate preparations are being made for his welcome.

Shipping Notes.

The Solace will sail this afternoon for San Francisco.

The bark George Curtis has moved to a new berth at the Bishop wharf. The schooner Rob Roy sailed for Oahu ports at 3:30 yesterday afternoon.

It will be nearly two weeks before another mail is received from Yokohama. The next boat is the Coptic, Aug. The coal on the Fort George was re-

moved from the after hatch first with the result that the ship is decidedly out of the horizontal.

The mail for the coast will leave on the Siberia this noon. It will close, as usual an hour earlier. Visitors will not be allowed on the ship after 11:30.

rived Yesterday afternoon from San Francisco and tied up at the Iringard wharf. She has a general sarge for this port. The trip down was made in ation dark the winds being very light-Captain Thompson brought his family

OIL FOR THE BODY

You can't lose an atom without feeling it. The body s like an engine, a watch, machine; must be kept in good order to run right.

That's the reason Scott's Emulsion is so successful in all wasting diseases. It feeds, nourishes and strengthens when ordinary food won't.

Doctors say Scott's Emulsion is the best nourishment for those who are not as well as they should be.

We use the whole oil in Scott's Emulsion because the great reputation of cod liver oil as a food and medicine was made by using it in this way. Substitutes in the shape of wines, cordials, extracts, etc., should be carefully avoided.

We'll send you a sample free upon request. TYPE & BOWNE, 400 Pearl Street, New York,

The visitor had been becalmed for twenty-four hours off this port. Young Brothers picked the vessel up two miles off to the southward. A short distance off the harbor the towline broke, but the Lurline was finally prought in all right.

Vice Commodore Picker reports the Lurline as having left Molokai at 4 yesterday. La Paloma close inshore then, seemingly having a light breeze. Nothing was seen of the Gladys all day.
